INJUNCTION ISSUE

Will be Forced by the Miners Continuing Their Marches.

As Fast as One Group is Arrested Another Will Start Until All the Jobs Are Filled.

PITTSBURG, Pa., Aug. 12.—The striking miners at Canonsburg have determined to force the injunction issue by continuing the daily marches and meetings in the neighborhood of the McGovern and Canonsburg mines in spite of the order of Judge McIlvaine, of Washington, forbidding marches on the public roads leading to the mines. The purpose is to have the men arrested in order to test the legality of the injunction. Patrick Dolan stated that it had been determined to keep up the marches, and as fast as one group is arrested another will take its place, until there will be so many of them in jail that the public opinion of the community and the country will be aroused on the question of the alleged new form of injunction. In this movement the support of all the leading trades unions of the country is said to have been pledged as a result of a secret meeting at Columbus during the last three days, and which was presided over by Samuel Gompers, president of the American Federation of Labor.

Information has been received by the Pittsburg operators that the miners of the Bell, Lewis & Yates company have struck in the Reynoldsville field, and that all the mines of the company are idle. The company is one of the heaviest tonnage producers in the northern field, and ships extensively to the Buffalo and New York state markets, as well as to the eastern seaboard coaling docks. About 1,000 men are employed. Notificatio has been received from the Fairmount and Clearfield districts, but at East Brady it was reported that the miners at several pits in those districts are on the grievances being of a local nature and independent of the national strike. The usual march of the miners was made at Turtle Creek at 9 o'clock this morning, but there was little to encourage the strikers, as more men went into the pit today than yesterday. The strikers say they are not disheartened, however, and with plenty of provisions they will stick to the work on hand. The run of coal at the Turtle Creek mine yesterday was five cars of lump coal, one of nut and one of slack. Serious trouble was threatened at Unity at 4 o'clock this morning. Deputy Sheriff Richards was in charge of some men going to work and the strikers ran ahead of the men, hooting and jeering them. Sheriff Richards ordered the strikers to move, but they refused. He then called on his other deputies to assist him and the strikers, seeing that he meant what he said, moved off, still hooting the men going to work.

When the report of the trouble was made at camp there was great excitement and many threats, but the excitement quieted down on the arrival of the leaders. There are now 122 deputies at Plum Creek, an increase of fifty two. When T. B. DeArmit heard of the threatened trouble, he drove over from Turtle Creek and spent all morning in going from house to house to induce the men to go to work. At noon there were 203 men in the mine, a decrease of thirteen. The decrease is due to the new tactics of the strikers in guarding the miners' houses. A new move is to be made by the company. A number of the miners who are working will file a bill in equity, asking that the strikers be restrained from marching past their homes. They say that the continued noise and excitement is undermining their own health as well as jeopardizing the lives of members of their families who are sick. At Sandy Creek there are seventeen diggers, eight drivers and twenty two day men at work. This is an increase of eleven. Four of the men are new and came from the Panhandle district.

PANHANDLE DISTRICT IDLE.

WHEELING, W. Va., Aug. 12.—At 2:30 o'clock this morning 250 strikers from over in Ohio marched through Wheeling to the Riverside and Elm Grove mines, where they joined the 500 Moundsville, Glendale and Bogges Run miners who had been on guard all night. It took only a few minutes persuasion to clear these two pits and the whole Panhandle district is now idle except a few small peddling mines that supply purely local household demand. This morning a report show a loss strength in the Kanawha Valley strike. More men have gone to work on both sides of the river At Fairmont there is more hadlock now than has been seen for several weeks. The local businessmen are waiting for Compers and the conference of national leaders at Monongah tomorrow. The leaders will brave the United States court's injunction and if any are arrested all the labor unions in the country will take up the fight for them.

Word from all sections of the union are coming to the rescue of the strikers. A central company at Akron, Ohio, sent a dispatch offering to donate two tons of coal free, agreeing to ship it wherever directed. The offer was thankfully accepted and the coal will be distributed among the homes of the miners. The Fishermen's Protective association of Astoria, Ore., [illegible] cases of canned salmon to the miners, which was also accepted. The salmon were started east by fast freight. There is no change in the price of coal from the figures of the last two days. The supply is said to have increased, and the West Virginians are selling down to prices which approach those in effect before the strike began. Many of the operators find it profitable to load the slack, which has, in previous years been stacked outside of the pipples, because it could not be sold. This is now saleable at a price which yields as much as screened coal before the strike.

ANOTHER INVASION BY MINERS.

WHEELING, W. Va., Aug. 12.—This morning another invasion of Ohio side miners was made upon a local mine. Three hundred miners from Wheeling Creek and Barton, on the Cleveland, Lorain and Wheeling railroad, passed through the city, and they reported that 100 more from Maynard were to follow. It was expected their presence would have some effect on the Riverside, but Secretary Lewis stated last night that the march would not come off today on account of no answer yet being received from President Ratchford. It develops that the march across the river to Wheeling was without the endorsement of the miners of Belmont. None of the Riverside men appeared to work, but the management announces that the mine will be operated after the Ohio men leave.

The visitors may make a demonstration against Elm Grove, where a small body of miners are now working.

INJUNCTION PAPERS FILED.

PITTSBURG, Pa., Aug. 12.—The much talked of bill for an injunction against the united mine workers that was to have been filed in the United States courts, was filed in the county courts about noon by the counsel for the New York and Cleveland Gas Coal company. The defendants named are the United Mine Workers of America—Patrick Dolan, president, Edward McKay, vice president, William Warner, secretary and treasurer, and others. The plaintiff company sets forth that it is a corporation under the laws of Pennsylvania, with a capital of $1,000,000 invested in coal lands of Pennsylvania. Three of their mines, employing 1,200 men, are at Plum Creek, Turtle Creek and Sandy Creek. The bill then recites the conditions prevailing at their mines since the strike began, and alleges that the strikers have paid no attention to the sheriff's proclamation and that the lives of the miners and the property of the company are in danger. Judge Collier granted a preliminary injunction restraining and enjoining the defendants from assembling, marching or encamping in proximity to the mines and houses of the miners for the purpose by intimidation.

A hearing was fixed for August 16. The injunction is regarded as the most sweeping yet issued. President Dolan expressed surprise when informed that it had been granted and added:

"It will make no difference to us. We will not break camp and will go right along as usual until the matter is tested in the courts. We will stay there regardless of every judge in Allegheny county, and if they attempt to enforce the injunction they will have to build more jails to accommodate the men."

GUILTY!

Was the Verdict in the Radford Case.

The Sense of the People and the Americans in Footwear Finish Deliberation.

Trouble Brewing.

WASHINGTON, D. C., Aug. 12.—The United States consul at Medellin, Colombia, reports to the state department that the long pending trial of Charles Radford, a native of Alabama, accused in Colombia of murder, terminated July 3rd in a verdict of guilty. The judge pronounced sentence of death on the spot, with instant, and an appeal was taken at once to the highest local tribunal and it was granted. The sentence is regarded as iniquitous and hopes are entertained that it will be reversed. If it is not, a further appeal can be made to the supreme court of Bogota. After his sentence, Radford was, by order of the alcalde, placed in heavy irons and otherwise treated in the most cruel manner.

The United States consul proceeded to the governor against such needless cruelty and he said he was powerless to interfere with the alcalde's orders. The consul then telegraphed to the American minister in Bogota, hoping to obtain better treatment for the condemned man through the Colombian government. The judge who tried the case said that he did not expect the verdict, which was received with surprise and indignation by the people present at the trial. The jury was composed of three very young men, all deficient in intelligence. Jurors cannot be challenged in Colombia. Five jurors are drawn by lot. One is struck out by the prosecuting attorney, one by the counsel for the defense and the three remaining constitute the jury.

Mrs. F. W. McCarthy has gone to Battle Creek, Mich., to visit her father, Mr. W. H. Dudley.

THE MEXICO WRECK.

An Inspector Will Inquire Into the Facts.

The Vessel Struck the West Shoal Rock Which Shows on the Chart—Course Changed.

SEATTLE, Wash., Aug. 12.—It will require an inquiry by the government inspector of hulls, Capt. J. W. Bryant, to determine the facts of the wrecking of the steamer Mexico at the entrance of Puget Sound. It is stated, with seeming authority, that the rock which was the cause of the Mexico's undoing was West Point rock and that it shows on the charts.

The first accounts of the disaster are to the effect that the rock was hidden beneath the waves and was not down on the charts. Puget Sound is on the inside route to Alaska and has been considered an open highway. It was stated on the authority of Dr. B. G. Anderson, a passenger on the Mexico that the steamer's course was changed so as to send her outside in the hope of saving sixteen hours on the trip. The change was made by the captain as a result of a petition circulated by the Christian Endeavor excursionists on the boat, who were anxious to reach Seattle before the time limit of their return tickets to the east had expired. Pilot Cornell is an experienced navigator and has been employed in these waters for a number of years. He was on watch and Captain Thomas was in his state room. Whether Pilot Cornell was neglecting his duty, or mistaken, is not the course will only be determined by the inquiry now in progress.

ON THE CLIMB.

Wheat Prices Reaching for the Dollar Mark.

Large Losses by Bears and Renewed Confidence on New York Change.

NEW YORK, Aug. 12.—Great excitement prevailed on 'Change this morning when the wheat market opened. Trading was very active and bull speculation was heavy. Cables were all higher, but the market for wheat was in a bull fever and to a considerable extent worked independently of cables or crop news. The market sharply advanced to 88½c, after which it eased off a little.

CHICAGO, Aug. 12.—Wheat—Sept., 85¾@86c; Dec., 87¼@88c; May, 94¼@95c. Corn, Aug., 36¾c; Sept., 37¾@37⅞c; Dec., 29½c; May, 31¼c. Oats, Aug., 17½c; Sept., and Oct., 18½c; Dec., 19½c; May, 20½c. Pork, Aug., and Sept., $7.90; Oct., $4.92; Dec., $4.02. Lard, Aug., nominal; Sept., $4.35; Oct., $4.40; Dec., $4.42. Ribs, Aug., and Sept., $4.82½; Oct., $4.85.

COAL COMES EAST.

The Santa Fe is Hauling the Colorado Article.

It is Shipped in Refrigerator Cars to Five Islands Fruit—Great Quantities Shipped.

VALLEY CITY, Ohio, Aug. 12.—Railroad men are greatly interested in the discovery which is alleged to have been made at La Junta, Colo., that the Santa Fe Railroad company is shipping coal to eastern points in refrigerator cars. According to the report four refrigerator cars were side tracked at La Junta for repairs. The cars were marked and sealed and the contents were billed as perishable fruit, which has right of way over all other class of traffic except mail and fast passenger service. It was necessary for the workmen to enter the cars in order to make the repairs. The seals were broken and the cars were found to be filled with coal from the mines of Colorado and New Mexico. Refrigerator cars are said to have been going out of the state on a very extensive scale, for two or three weeks past.

RICH GOLD FIND.

California Mines Even Better Than the Klondike's.

Nuggets and Gold Dust Accumulating in Southern Colorado Just in Time for Winter.

Long Rush Expected.

BERKELEY, Cal., Aug. 12.—News was received here last night from Coffee Creek to the effect that $40,000 more of gold dust and nuggets were taken out yesterday afternoon from the pocket out of which the Graves brothers took their $12,000 last Saturday. As the excitedly rich discovery of gold is reported on Morton creek, about two miles from the mouth of the Graves brothers discovery. It is said $15,000 was taken out in one afternoon and that two miners are taking out gold on an average of $10 to the pan. This strike is on the same vein of the Graves claim and is supposed to be an extension of the same.

Outlook is Very Dark.

HAVERTY, N. S., Aug. 12.—The battle ship Indiana was successfully placed in dry dock this morning.

Cause of a Cabin Fumes.

TURTLE COVE, Cal., Aug. 12.—Philip Kern, a wealthy coffee planter of San Salvador, died here yesterday. He was one of the best known coffee planters in Central America. He commenced business fifteen years ago and amassed wealth until the present value of his property is over $5,000,000. He was a German by birth.

ON A ROCK.

The Hanna Yachting Party in Distress.

Lighted in Dangerous Waters and Have a Bad Night—All Turns Out Well.

PORT ARTHUR, Ont., Aug. 12.—The steam yacht Comanche, with Senator M. A. Hanna's party on board, is ashore somewhere in Nipigon strait, on the north shore of Lake Superior. The boat seems to be in serious danger as the telegram calling for assistance asked that two wrecking tugs and a lighter be sent at once. The telegram was sent from Nipigon station on the Canadian Pacific. The Comanche left here Tuesday morning for a cruise along the north shore. Senator Hanna's party, up to that time, had had a delightful trip and had met with no mishaps. The place where the yacht came to die aster is of rocky formation, channels dotted with many small islands. It is considered dangerous for any except experienced pilots.

CHICAGO, Aug. 12.—The yacht left Cleveland on the evening of July 31 for a cruise of the great lakes. The Comanche is steel, thoroughly seaworthy and was used by Senator Hanna's brother last summer in his cruise of the West Indies.

CLEVELAND, Ohio, Aug. 12.—The party on board the Comanche included Senator and Mrs. Hanna and daughters, Mable and Ruth, of Cleveland; ex-Governor and Mrs. Merriam, of Minnesota, who were taken on at Duluth; Mr. and Mrs. Gardner, of Toledo; Miss Phelps, of Cleveland, and Mr. Beery, of Toledo.

HITS THE FAKIRS.

A New order by the Postoffice Department.

Parcels can be Opened Only by the Addressee or on His Written Permission—Some Other Rulings Thereon.

WASHINGTON, Aug. 12.—Third Assistant Postmaster General Merritt called attention today to a growing practice of certain business concerns, which in extending their trade, send registered parcels containing their goods to the smaller postoffices, addressed to fictitious or otherwise unknown persons. The concerns then make some plausible excuse to the postmaster and ask him to examine and dispose of it at reduced price rather than return the parcel. The opening of packages other than by an addressee or on his written order is forbidden by the postal regulations, as has been frequently pointed out by the department, and postmasters are again warned to return them to the sending postoffice.

INDIANA LITERARY WORK.

State Librarian Henry Searching a List of Indiana Productions.

State Librarian Henry has been sending circulars to the members of the Western Association of Writers and to the county superintendents of Indiana asking for lists of all persons in Indiana who are authors of books or pamphlets, the object being to secure a complete collection for the library. There have been about fifty responses giving a list of 200 books and pamphlets. A full list of books on local history is especially desired and all educational institutions will be asked to furnish the shelves of the state library with their catalogues and other publications.

CLIFFORD'S RECORD BAD.

Mr. Tanner Pays for the Killing of a Gambler.

CHICAGO, Aug. 12.—Charles W. Clifford, who killed his wife and himself yesterday at their home, 302 Rush street, was a member of the famous Greely expedition to the north pole. He was with Lockwood and Greely during all the long and terrible trip to the frozen regions of the north. He saw his companions starving to death or succumbing to the cold and disease, and he took part in the killing of the ill fated Henry, whose humane had driven to steal part of the supplies portioned out to others. Clifford went with the expedition as a carpenter. Policeman Graham A. Dunker, of whom Clifford was jealous, has been suspended by Chief of Police Kipley pending investigation.

LOCAL LINES.

Harvey Reichelderfer, the Monroeville merchant, who has been seriously ill for some time, is better.

Carl Daugherty, Lin Davis, Harry Clark, Jack Thompson and Al. Hedrick, of Wabash, attended the races yesterday.

Misses Stella Sulsby, Viola and Kate Roney returned home last evening from a weeks' visit with friends in Bluffton.

Misses Clara Strouder and Emma Bischoff have gone to visit friends in the country near Williams station on the Grand Rapids and Indiana railroad.

RACES WERE GOOD.

Pilot Boy Won the 2:10 Trot From Dandy Jim.

The Other Winners Were W. Andre, Tal Mayo Boy and Princess—The Last Races Today.

The great record of Crescens was enough for one day and established beyond question that Fort Wayne has one of the best tracks in the country. The pretty chestnut stallion is without doubt the best trotter ever foaled and Dewsnap must acknowledge him as king of three year olds for the reason that he tied the world's race record for colts twice in one day, and that in the seventh and eighth heats. Mr. Ketchum has entered his wonder in the big stakes at Syracuse and Readville, Mass., and as they did not close until Tuesday the Toledo owner and driver would not take a fast record until Wednesday. He was offered $10,000 for Crescens but declined it saying that he might accept $15,000 and show a mile in 2:10. Crescens was shipped from the track this morning.

In the 2:10 trot, after Dandy Jim had won two heats, Pilot Boy came to the front and won the next three and the race, the favorite, Senator A., not being in good condition. He was lame at Columbus and was not up to a winning race yesterday. Page was lame, too, and the judges allowed him to be drawn, but refused Senator A. the same privilege.

St. Andre, favorite in the 2:23 trot, had an easy time winning. Mary Cossack was the contending horse in the first two heats and Fred Linder in the third, but neither of them forced St. Andre to his record of 2:13¼, made in Monday's race.

In the 2:15 pace Chas. Forrester and Newton W. were equal favorites, but Palmyra Boy was an unknown quantity and won the race in straight heats without being pressed to his limit. He looks good for a mile in better than 2:10 he free today. These races are based. The winner is owned by R. L. Bowles, of Palmyra, Mo., and made a new record for himself yesterday.

Elkiron was a strong favorite for the 2:12 trotting stake, although some of the wise men played Derby Princess to win. She was off, however, and made a break in every heat, Cephas being the animal to make Elkiron travel faster each heat, although to win the great chestnut did not have to extend herself or go anywhere near her record. Notes.

For the first time since the track was established neither D. C. Hanna nor his son, Harry, are here.

Sally Mahoney is holding the reins behind Frank Bogash today and if he is right Bumps will have to go some to win.

Geers is having his last year's hard luck here. He has not had an easy time up to date, although he has won a piece of several races.

George Ketchum has scores of Fort Wayne friends who congratulated him on owning the champion trotter of the world. George's mother, wife and daughter saw the great colt win.

Wilson Bros. have a great stable this season and are winning almost every purse for which they contend. Bumps, Mosul, Pilot Boy, Silver Thread and Nancy Tone are all driven by Dick Wilson.

The races today were the best betting events of the meeting. Miss Finley was a strong favorite in the 2:11 pace, with Cadieton and Ira Bond selling as second choice. In the 2:11 trot Oakland Boy was in the favorite over Ben Boal and Mosul, which sold about equal, with plenty of backers for the field. In the 2:08 pace Bumps was an even money favorite, with Frank Bogash as second choice and Hot as favorite third. Rules, Dorothy and Jo. He sold in the field most of the time.

HE LOVED IN VAIN.

Disappointment Drives B. M. Castetter to Suicide.

Swallows Two Ounces of Carbolic Acid and Dies in Two Hours—Was Married to Two.

After drinking two ounces of carbolic acid Daniel M. Castetter, an inmate of the county infirmary, died in awful agony early this morning. The deed was taken with suicidal intent there, no doubt.

Daniel Castetter, a man 50 years old, was admitted to the infirmary two months ago. He was mentally sound, but owing to the hard times and a failure to get employment he found his way to the institution that has offered its shelter to so many unfortunate and distressed ones in like circumstances. Superintendent Felts found him to be a man of cheerful disposition notwithstanding his misfortune and felt a kindly interest in the man. He did not know the remarks antecedents nor his past life further than that he had a sister and friends, at Pierceton, and he once worked for Levy Bros. the Barr street clothiers.

About 5:30 o'clock this morning Castetter arose from his bed and went to the medicine closet, which is situated off from the sick room. The rules of the institution do not permit access to the medicines without the permission of somebody in authority. This he did not secure. He drank the contents of a bottle labeled "Carbolic Acid, Poison," and went back to his room and laid down. An attendant of the institution heard the movements of Castetter in the sick quarters and went to the latter's room to investigate. He found the unfortunate victim unconscious and in convulsions.

Dr. H. V. Sweningen was hastily summoned for thirty minutes after the fatal dose had been taken and exhausted every means known to science to save the man's life, but in vain. Castetter died about 8:30 o'clock, without having uttered a word in explanation of his rash act. Coroner Kappel was sent for and he ordered the remains removed to Wellman's undertaking establishment.

From the statements of several who were closest to Mr. Castetter, he became disheartened over a love disappointment, having been in his better days a year ago a lover of a Miss McGinnis, residing on Washington street. He confided to Bennett Hawk, an attendant at the infirmary, that the girl had declined him for another man, to whom she was shortly to be wedded. At times since his love episode he was downcast and sought the seclusion of his own method of associating freely with those about the institution. The disappointment drove him to the extremity of taking his own life.

Mr. Castetter was married three times and two divorced wives survive him, one living at Goshen with her son and another one at Chicago. Other relatives live at Elkhart. Mr. Felts has telegraphed the news to all the three mentioned persons, some of whom are expected to arrive and take charge of the remains.

FRENCH DUELISTS.

An Effort Made to Prevent the Meeting.

Prince Henry, of Orleans, Will Meet Count Lipski Unless Persuaded Other Than Prince Cherchen.

PARIS, Aug. 12.—Prince Henry of Orleans, replying to the duke of Aosta, a nephew of the king of Italy, who was sent to France to his uncle with instructions to make an attempt to prevent the duel being fought between Prince Henry and General Albertone, as a result of the prince's reflections upon the conduct of the Italian soldiers in Abyssinia, has informed the duke that it is impossible for him to retreat. It is now thought even will intervene in the matter.

The following second duel was fought, it has been issued: "It is learned from a trustworthy source that the unexpected intervention of a very high Italian personage, claiming for himself the honor of encountering Prince Henry of Orleans, will very probably modify the situation. Under these circumstances it is probable that General Albertone will have to give place to the exalted personage in question."

A telegram which was received by Prince Henry while traveling last night appealed him of the new intervention.

Siberian Railway.

SAN FRANCISCO, Aug. 12.—The building of the Siberian railway has been of great benefit to the lumber trade of this coast. The Glen Tay was a new freight steamer of 3,000 tons net, was at Seattle, has been chartered to take lumber and rail road ties from Columbia river to Vladivostok.

Mrs. E. P. Ordway and baby, Margaret, of Lakeside, have gone to Battle Creek, Mich. While there they will be the guests of Mrs. H. Dudley Fairchild, of Chicago.

BUSINESS ON HAND.

Busy Night for the Board of Public Works.

Assessment Rolls to be Approved, Sidewalks Ordered and Several Improvements Recommended.

The board of works have a good visible business on hand for tonight. The assessment rolls will be approved for several improvements, property owners have been notified to appear and register their kicks, several resolutions will be introduced for new work and there will be other matters up for discussion.

Assessment rolls will be approved for the following work:

Sidewalk on Thompson avenue, from Hoagle avenue to first alley north.

Grading Pape avenue from St. Mary's avenue to a point 114 feet east of west line of Hanna's outlot No. 12.

Paving alley between Main and Berry streets, from Harrison street to Maiden Lane.

Sidewalks on east side of Fairfield avenue from Logan avenue to south line of Fairing's outlot No. 8.

The board will hear remonstrances against the confirmation of benefits and damages in the matter of changing the location of Fifth street between the east line of Hoehn's subdivision to intersection of Fifth street and the old feeder canal property; also for a sewer constructed at the rear of lots 23 to 28, Rockhill's amended addition and across the Nickel Plate tracks; also for a sewer in the first alley south of Maumee avenue, from Aliger street to Fletcher avenue, and in the alley between Aliger street and Fletcher avenue, from the first alley south of Maumee avenue to Hugh street; also for the widening of the alley between Grant and Wabash avenues, from Winch street to Wabash railway.

City Engineer Randall will present plans and specifications for a new sidewalk on South Fairfield avenue, to extend from Creighton avenue to Organ avenue. He will also have the plans for work to be done under several other new resolutions.

CONTESTING A WILL.

Fort Wayne Relatives of a New York Millionaire.

Interested in an Important Suit Brought in the New York Courts—Mrs. Will Connover's Father is Dead.

Action was brought in the New York courts this week to contest the will of a multi-millionaire, Mr. Baumgartner, who died leaving his immense fortune to New York people with whom he lived but who were in no way related to him. The contest is based on the alleged insanity of the deceased. One of the most important links in the chain of evidence to be introduced by the relatives is a letter written to a relative in this city by the people who have been named as legatees. This letter was written in a reply to an inquiry as to the old man's health and it stated that he was of unsound mind. Since then the will was executed. The relatives feel certain that they can win the case. Among those who would come in for a share in case the court decides to distribute the fortune among the kin is James McGillatrick, the father of Mrs. Will Connover, and Mrs. Louis McGillatrick, of this city. Mr. McGillatrick is now in New York assisting in pushing the case.

MUNCIE MANNERCHOR.

Won the Prize Offered at the Robinson Park Festival on German Day.

The members of the Harmonia Mannerchor club of Muncie, were made happy yesterday on the receipt of information that they had been awarded first prize in the annual festival contest of German singing societies of northern Indiana and Ohio, held in Fort Wayne last Sunday. Nearly 200 people accompanied the club from Muncie. There was great interest manifested in the friendly rivalry, and 10,000 people attended the interesting event at Robinson park. Fort Wayne had four clubs in the contest with forty members in each; Toledo and Lima, Ohio; Wabash, Lafayette, Fort Elkhart and Logansport all had from twenty four to forty members, and Muncie was represented with ten vocalists. Each club was privileged to sing two selections, but could not respond to encores. The one that succeeded in capture the audience and first place for Muncie was directing to the Fatherland. In the near future a permanent organization will be held annually. Professor Alfred Dunn is the leader of the Muncie club, which has thirteen regular members.

Bryan Back From Yellowstone.

SHOSHONE, Idaho, Aug. 12.—Hon. W. J. Bryan has returned from his seventeen days trip through the Yellowstone park. He was met here by Governor Smith and Congressman Hartman, who will escort him to Butte and other points in Montana.

CHINESE CALENDAR.

The Chinese Minister at Washington Expects to Convert It.

SAN FRANCISCO, Aug. 12.—The Chinese minister at Washington prepares to convert the Chinese colony under his charge in this country which is calculated at Hong Kong the United States.

but is one day out of time reckoning when used in this country, no allowance being made for the difference in longitude. According to instructions from the Chinese minister the Chinese consul general has just issued a proclamation, which was yesterday posted in Chinatown and sent out to other places in this state setting forth the error and the means for it and directing that it shall be corrected.

COULDN'T CONVICT.

Suspected Pickpockets Are Released From Custody.

William T. Maguire Shows the Loss of a Second Sum Stolen Before Court This Morning.

William T. Maguire, a horseman of Antwerp, Ohio, while in the betting stand at the races yesterday afternoon, had his pocket picked of a roll of bills amounting to $47. He reported his loss to the officers. Superintendent Gerdine and Captain Bergman set the officers to work rounding up all suspicious characters. Seven fellows were seen under arrest and two of them Mr. Maguire identified as the ones who were betting him in the crowd. The others were released. The prisoners were arraigned at police court this morning under the names of John Shea and Thomas Brannon. Several witnesses testified that they saw Brannon give a roll of bills to his companion. The number and denominations of bills in the roll thus passed did not quite tally with Mr. Maguire's description of his money, but nevertheless the evidence seemed at first to be convincing enough to prove their guilt. Their attorney, R. R. Hanna, fought the case and succeeded in producing an important witness, Harry E. Sprague, whose testimony accounted for the money found in the possession of his clients. Sprague had met the fellows at the races and they were placing bets for him. His evidence turned the case in favor of the accused, and the mayor had nothing to do but dismiss the charges as it was impossible to convict. Shea and Brannon admitted that they were professional tools, following the races. They were ordered to leave town.

POLICE COURT.

Mayor Scheerer, after an illness, was back in his accustomed place at police court this morning and passed sentence upon five victims. Jas. Malone, August Johnson and John Doyle, for drunkenness, were each given seven days. Two damsels from the "cribbery" at Detroit were arrested late yesterday afternoon by Officers Greer and Dickson. The girls were doing a one high kicking at the transfer corner, to the consternation of the virtuous people who passed that way. The prisoners gave their names as Mabel Dashants and Marie Godfrey. They swear with an accent. The mayor thought that $5 and costs would be about right. The giddy females tried to buy off the mayor with smiles, but he had the marble heart and they went to jail for fifteen days.

CHARITY PATIENT.

William Randall Roberts Dies a Pauper.

NEW YORK, Aug. 12.—William Randall Roberts a former merchant prince of New York, who was also a politician of international reputation, died Monday, a charity patient in Bellevue hospital.

Roberts was United States minister to Chili in Cleveland's first administration. On May 18, 1895, Roberts was stricken with paralysis in Santiago. The following year he was brought back to New York by C. M. Roberts, former secretary of legation, and lived with him, although he had a wife and son here, ever since, until the second of last month. On that date he was sent by sockets to Bellevue.

Mr. Roberts was born in county Cork, Ireland, in 1830. Mr. Roberts received an academic education and came to the United States in 1849. He secured employment with A. T. Stewart and eventually entered in the dry goods business for himself on the Bowery, when that through fare was the great shopping district. His store was called the Crystal Palace and was well known as the most typical establishment of its kind in New York.

Roberts did an immense business and he retired with a fortune that passed the million dollar mark in 1869. His real estate holdings were extensive. After retiring from business Roberts went into politics and to this his widow ascribes the loss of the greater part of his fortune. In 1876 he was elected a representative from this city to the first second and forty-third congresses. In 1877 he was elected alderman at large and he was president of the board of aldermen that year and the next. Roberts was a leader of Tammany Hall up to the time of his going to Chili. He held office until Patrick Egan replaced him under the Harrison administration.

Roberts was also prominent in Irish national matters. He was president of the Fenian brotherhood at the time of the raid into Canada by General John O'Neill, in 1866. In the jail he took in Dr. James, international episode, was arrested by order of the president of the United States.

AS a man or a woman grows older the interval between difficulties and chrysanthemums seems much shorter.

WITH the farmers getting a better price for their products, times should soon get better for the toilers of the city.

THERE are great times at the Fort Wayne Driving park and demonstrate that Fort Wayne is not to be outdone by larger cities.

A CERTAIN triumph of gallantry over thrift is illustrated in the case of the Boston merchant, who refuses to turn in a check signed by Mrs. Cleveland because he desires to preserve her autograph.

THE Cuyahoga democratic county convention at Cleveland Saturday indorsed the Chicago platform entire and pledged its legislative nominees to vote against John R. McLean for United States senator. The fight inside the party against the candidacy of McLean is developing such proportions that it will not be surprising if, in the interest of harmony, he shall withdraw from the race.

A WOMAN resident of Washington estimates that his people in the District of Columbia spend over $12,000,000 there every year, of which $6,120,000 goes for food and other living incidentals, $3,420,000 for clothing, $1,064,000 for homes and $537,000 for tobacco.

CUBANS may find it very hot policy in the end to be greedy in its dealings with Americans who are in or who may go to the Klondike gold region. The exact boundary line between the property of the United States and that of Great Britain in that locality is yet to be determined.

It is doubtful whether the murderer of Canovas represented any organized force against the government of Spain. An assassin usually acts on his own hook, and he is just as likely to strike down a benefactor of the human race and an apostle of liberty as an oppressor and a tyrant.

THE question of the establishment of government savings banks is being much discussed at present. The argument that such banks encourage frugality is particularly effective at this time, when so many people are suffering not only from hard times, but in many instances from a lack of prudence in laying by for a rainy day.

NO MAN should be permitted to keep about his place of business or his home savage dogs likely to molest persons passing in the quiet and orderly pursuit of their own affairs. Cross and vicious animals of this sort, if maintained within the city limits at all, should be kept chained or confined, and released only against tres, users.

THE gold production of the world for 1896, according to the estimate of Director Preston, of the United States mint, was $236,000,000, and he puts the probable output of gold for 1897 at $240,000,000. The total output of gold for 1892 was, according to a pamphlet issued by the treasury department in July, 1896, $202,000,000, only two millions less than for 1896. Director Preston would seem, in his estimated increase of $38,000,000 for 1897, to have given wings to his imagination.

AN eastern contemporary puts it about right in saying: "Doubtless many of those who are setting out for the Klondike to dig for gold will come back rich. Many others will come back poor, and still more will not come back at all. But the men of energy who shall now set to work to organize a system by which to supply the Klondike miners with food, clothing, hardware and other necessaries will surely come back with more gold than was ever dug out of any mining claim. This will only be history repeating itself."

THE auditor of state has issued notices to the county auditors giving the tax levy for state purposes for 1897. For the general fund the rate is nine cents on each $100 and fifty cents for each poll. A levy of five cents is to be made for the benevolent institution fund and three cents for the state debt sinking fund. The levy for educational purposes is one and two-third cents and eleven cents and a poll tax of fifty cents for school revenues. These same rates prevailed last year.

THOSE people whose desire for sudden wealth may lead them to heedless action in rushing to the Klondike with neither adequate provision for the trip nor the slightest conception of the dangers which will confront them on that inhospitable region may well give thoughtful attention to the official warning which Secretary of the Interior Bliss has issued in this connection. The impossibility of the 3,000 persons already at the pass awaiting entrance to the field never getting there at this season should deter others from making the attempt. Keep away from the Klondike.

THE pension roll of the United States has almost reached the million mark. Commissioner Evans has just issued a statement showing that at the beginning of this fiscal year the pensioners numbered just 965,328, an increase of 12,850 for the past year. During the year 50,100 new pensions were granted and 3,971 persons were restored to the rolls. Old age and disease, however, are working great inroads into the lists, for there were 1,966 deaths during the year. Other sources of loss were 1,020 from remarriage of widows, 1,845 orphans attained their majority, 2,867 fail ures to claim pensions and 3,570 losses from surcondist causes.

DOORS WILL CLOSE.

Y. M. C. A. Work to Cease This Evening.

Busy Week Dropped at the City Association—Not Sunday Meetings Will be Held—Library Loaned.

Tonight the doors of the City Y. M. C. A. will close and no more week-day work will be done, at least for the rest of the summer. Promptly at 10 o'clock the institution doors will be locked, and probably it will be forever, so far as active work is that building is concerned. The revenues will not keep up the work and there is no means of continuing without private subscriptions which no one feels justified in giving under present circumstances. Eugene Mathis, who has been acting in the capacity of secretary, will retire permanently. The directors have decided to loan the association library to the railroad department, to which place it will be moved in a few days.

NEW TELEPHONE COMPANY.

National Telephone and Telegraph Company Organized in This City.

An organization that will have an important bearing upon the telephone toll business in this territory and elsewhere was perfected in this city yesterday afternoon. The company is composed of Fort Wayne and eastern capitalists. They have purchased the lines of the Western Telephone and Telegraph Construction company and the business will hereafter be conducted under the name of the National Telephone and Telegraph company. The capital stock is $1,000,000 and articles of incorporation will be filed in West Virginia. The first acquisition to the company's service is the extensive toll lines of northwestern Ohio and northeastern Indiana, heretofore controlled by the Western company. It will prove a formidable rival to the Bell monopoly. The officers elected yesterday were as follows:

President—George W. Beers.
Vice President—F. W. Holmes, of Ohio.
Secretary—H. J. Cable, of Ohio.
Treasurer—W. H. Duffield, of Toledo, Ohio.
Directors—S. M. Foster, H. C. Paul, C. S. Bash, G. W. Beers, W. H. Duffield, C. H. Grey, Frank W. Holmes, W. L. Parmenter.

The Governors won another game from the Dominoes yesterday making it two out of three for the series. Madden, the young pitcher secured from the Defiance, Ohio, team, was in the box for the Springfields, and he pitched the best game of the season against the Fort Waynes, only allowing three singles, two of which were made by Gear. His support was almost perfect, while that given Herr was very ragged. The big pitcher was effective enough, only allowing one earned run, but poor support discouraged him. Campbell and Kihm did some awful fielding, but as Madden could not be touched, the game would probably have been lost anyhow. Here's the story:

OTHER INTER-STATE GAMES.

DAYTON, Ohio, Aug. 12.—Dayton tried Pratt, a new pitcher, and lost a close and exciting game. Pratt did effective work until the eighth inning when he went to pieces and failed to rally. Had one of the old pitchers been substituted the Old soldiers would have won hands down, as the score in the eighth was 5 to 3 in their favor. The score:

Dayton . . 2 0 1 1 0 0 0 0 — 5
Toledo . . 1 0 0 0 0 2 3 4 x—10

Batteries—Pratt and Grossfield, Blue and Arthur. Hits—Dayton, 15; Toledo, 16. Errors—Dayton, 2; Toledo, 4.

NEW CASTLE, Pa., Aug. 12.—New Castle won the third straight game from Wheeling by their home run hits. Both pitchers were touched up quite lively. There were more home runs this year over seen on the grounds in one game. The score:

New Castle . 0 4 1 1 2 0 1 2 0 — 11
Wheeling . 0 0 0 0 0 1 3 0 1 — 7

Hits—New Castle, 12; Wheeling, 14. Errors—New Castle, 2; Wheeling, 4. Batteries—For New Castle, Leveman and Graffius; for Wheeling, Henning and Massitt. Umpire—Lally.

YOUNGSTOWN, Ohio, Aug. 12.—The game was delayed a half hour yesterday as players of both teams attended the funeral of Ball Player John Schreibe. James McAleer was pall bearer. The score:

Youngstown . 0 6 0 1 0 3 0 0 0 — 12
Mansfield . 0 0 0 0 0 0 1 0 1 — 6

Base Hits—Youngstown, 14; Mansfield, 12. Errors—Mansfield, 6. Batteries—For Youngstown, Fisher and Zimmer; for Mansfield, Beam and Vetter. Umpire—Colgan.

NOTES.

Darby has signed with Toledo.

Herr pitched good enough ball, but his support was very unfriendly behind him.

Pitcher Brown won an easy game from Pittsburg yesterday, allowing ten hits and striking out six batters.

Dayton and Fort Wayne are not playing each other today. The old soldiers are playing the Cincinnatis.

Springfield Times: "Fort Wayne has made money enough to have its suits dyed. They are no longer of the ruby hue of the jack of diamonds, but are of the sombre color of the ace of spades."

The other day while the Fort Wayne limited southbound was running at a high rate of speed through the south Chicago suburbs and close to a place where a match game of base ball was in progress, a batter hit the ball and sent it straight for the famous train. A window happened to be open and the ball went into a Pullman car and lodged against the bottom of a chair. The incident or accident was not noticed by the trainmen, but the batter started to run the bases, and of course made a home run without a slide. The ball was never found till the train reached Philadelphia, when a porter discovered it and gave it to the man who taken charge of hot articles. The home run was the game, and as the players permitted that the ball was on board the limited and the game being so rules provided for such a contingency, the umpire allowed the score to be counted. It was the first time on record that one lick of a bat sent a ball from Chicago to Philadelphia.

Umpire Emslie says that the cranks are responsible for rowdyism on the ball field, because they urge the players to disobedient acts and condemn the umpire without cause. The question is, what shall the cranks do when they see their team robbed by an incompetent or a dishonest umpire?

Toledo Blade: "The best fielding team in the National league would be composed of Zimmer, of Cleveland, catcher; Tebeau, of Cleveland, first base; McPhee, of Cincinnati, second base; Clingman, of Louisville, third base; McKean, of Cleveland, short stop; Holmes, of New York, left field; Beckley, of Pittsburg, center field; Tiernan, of New York, right field. The best batting team would consist of Merkle, pitcher; McGuire, catcher; LaRoche, first base; Jimmy Connor, second base; Everett, third base; Davis, of New York, short stop; Kieler, right field; Delehanty, left field, and Stenzel, center field."

Springfield Times: "The Governors have had more pitchers than Blue Beard had wives. Here is the list of swing benches: Crow, Bowders, Pollard, Fennimore, Whitridge, Gray, McIlvaine, Demmore, Wagner, Crow, Treadwell, Taylor, Martin and others. With the four now on the team, Cogswell, Poole, Madden and Herbrand, they make a goodly number.—Being thrown into a reminiscent mood by yesterday's score, the blockerite reflected that, in spite of numerous defeats, this city's claims to distinction in the Inter State league are many and imposing. The Governors have figured on the cipher side of more Chicago games than any other team; they have had three managers; they have the man who has pitched the lowest ball game; they were the first to place a team in the National league; they have been arrested three times, and their dividends are now bound over to the grand jury."

The base ball situation in Wheeling presents some peculiar phases. Wheeling is represented by a club which does not play any games at home, and is not likely to appear there during the remainder of the season, although the schedule calls for twenty-one games on the Wheeling grounds. Three games were transferred to Mansfield last week, and three more were transferred to New Castle this week. Frank Torreyson owns the Wheeling franchise, and W. J. Coyle and a county constable dispute possession of the ball park. There is no other place for Torreyson, and he continues to jump about the circuit smashing the schedule, while the word "Wheeling" on the uniforms of his players is a misnomer. He enjoys the unique distinction of managing the only ball team in the business without a home. The fence and grand stand at the park are covered with attachment papers to satisfy unpaid claims. President Coyle writes an "Er" before his official title, but he prefers taking chances on a sheriff's sale to accepting the $500 offer of Torreyson. The suits are set for a hearing on the 13th, but it is likely that the cases will be continued for a month at least, and that Torreyson will be shut out for the balance of the season.

Are You Really a Man?

Free, Absolutely, is This Offer to Weakened Men.

Discovery, Which Restored Him Well, Sent Free to All Who Need It.

Millionaires come and go, great men have happened, famed men died of a moment of the battle of life; but, like a man interview indicates he regained manhood enough to unburden himself, which remained him like a weight from all. So happy is he that he wishes the trouble to all those who are miserable and despondent how to be relieved.

Many men suffer from early mental failing, loss of nervous vitality, nervous exhaustion, loss of vital fire, dizziness, pimples, of nights, of youth, indulged to excess, they under-hand the constant worries of a business life, in later years, the period has him the tired professional man, who did not know but take loss. But life, sunlight burst suddenly upon him, he found, when, through happy chance, he heard a medical examination, the result of years of research for a remedy for such weaknesses as these, and, to his astonishment, found that all of physical and mental horrors are now relegated, that vanishing great embarrassment, nervous fear, and lack of self-possession, and ambition, is cured him. It made him a man. It is this glorious discovery which he wishes to make known to his male friends or old, who look the level south leaving him and who desire to restore vigor and vim to shrunken nerves and organs, which, with a sense of power and manhood and drag him from life's to A. E. Parkes, Lincoln, Neb. Mr. Parkes, 32, this prescription will be sent free to a fellow sufferer. Though far from home, Mr. Parkes can afford to send a prescription free to give happiness and blessings to a fellow man. Write him in confidence.

A BAD DOLLAR.

Experiences of a Man Who Got It Somewhere, but Wasn't Responsible.

A large, red whiskered man, with deep set little eyes, great spiny crow's feet round the sockets, a miraculous hat and lonely hair straggling out under the brim like an overtopping load of hay, came rolling into a Wentworth avenue trolley car and in a voice loud enough for the sins of his audience told about the troubles he was suffering on account of a counterfeit silver dollar that had been palmed off on him.

"First he paid his fare with a solitary nickel. Then he carefully unwrapped the spurious coin from the folds of a big sheet of yellow paper, held it at arm's length and regarded it with one long, lamishing look of tender regret. By this time the eyes of the occupants were upon him.

"'Looks good enough to pass all right, but she won't,' he began.

"'Counterfeit?' asked the man who sat at his left, reaching for the coin and examining it critically.

"'A little light, I guess. Feels a little greasy too. Still it looks like it would go all right in a countryman's hand, or in a west side saloon. But it's done for now. Its race is run. It'll not fool any more people. You see, it has been marked. They had me up in the secret service office today and marked it.'

"'Yes, but it's strange they didn't confiscate it. What are you doing with it now?'

"'Wait! That's just what I'm going to tell you. This dollar has been more trouble to me than my mother in law. Now, I'm not going to lose it in the end, after all this trouble. I can't afford to lose a dollar. I know where I got it, and I'm going to get my good dollar back. Understand! I got this queer coin from a grocer out where I live in the stockyards district. I don't suppose he knew he was shoving the queer, but he's got to hand back my good dollar all the same.

"'Trouble's no name for it, and I might have been put in jail. My daughter innocently offered to pay for a music lesson with this coin. It was refused and she came home disgraced and bawling. Still, I wouldn't believe it was a counterfeit and allowed my wife to take it to go down town shopping on a bargain day. She came back so mad because the cashier girl had slammed it down before a lot of people to test its ring and then shoved it back with a loud 'Bogus, madam!' that there was weeping and wailing in the house for three days.

"'So today, still believing the dollar was good and that these smart people who refused it didn't know it all, I went down town to see what there was in the old piece of money for myself. I went, I saw, but I didn't conquer—in fact, I'm congratulating myself to think I didn't get into jail. You see, it was this way: I had to pay some money due from me at the internal revenue office. I offered this dollar among other money, but the man in the revenue office got onto it right away—rubbed his fingers over it kind of carelessly, and with a smile that would have done credit to a devil fish remarked: 'You're getting your work down pretty fine, but not quite good enough for Uncle Sam. If you don't mind, you might just step over with me to Captain Porter's office and explain where you got it.'

"'This Mr. Smarty politely showed me the way to the secret service office, where I was introduced to an elderly man with white hair. I think they said his name was Porter. Mr. Porter looked at the dollar and of affectionately and said: 'We've got the mates to this fellow right here in the office, and I guess we'll have to keep it with them. It would be lonesome if we let it go out again.' Then, after asking me a lot of questions, he took some tools and stamped the coin with the figures '2427' and my initials underneath. 'Now, can you swear where you got it?' he said. 'Yes, I can,' I said, 'and I want to take it back there and get my good money. I can't afford to lose a dollar.' Then he said that if I could swear to the man I got it from he would permit me to take it back for that purpose.

"'But do not forget,' he added, 'you must return it to me promptly with out fail, under penalty, etc. If you don't, it will get you into trouble.' Trouble,' did he say? And I hadn't had trouble enough already. But I'm not going to lose a dollar. Mr. Porter told me he had the tools of the fellow that made it—got them over at Benton Harbor, Mich., the other day. 'But,' he added, 'I haven't yet caught the fellow.'"—Chicago Times-Herald.

HAY FEVER.

It Can be Cured by Hiroms' Double Treatment.

Read the Testimonials of Persons Permanently Cured of Hay Fever, Catarrh, Asthma and Kindred Complaint.

Hay Fever or Hay Asthma as it is often called, is a combination of Bronchial and Nasal affections. The immediate cause and source of irritation begins of external origin, attacking individuals during the months of May, June and August. The pollen of hay, dried grasses and ragweed comes in contact with the nasal and bronchial membranes, involving all the air passages, causing immediate irritation, frequently disabling persons afflicted therewith. The great discomfort and suffering, say nothing of the loss of life caused by this terrible disease, may be avoided by using Hiroms' Double Treatment, which is a sure, safe and permanent cure. Commence using the medicine at once, and get your system in condition to resist the effect of these agencies upon the mucous membrane, thereby keeping the tissues in a healthy condition.

A Hay Fever Victim Made Happy.

The Hiroms Medicine Co., Fort Wayne, Ind.

GENTLEMEN:—I have been afflicted with Hay-Fever in its most malignant form for years. The first attack would appear in June. During August and September my sufferings were intense. Water would run from my eyes and nose, the paroxysms of sneezing were uncontrollable, and I had terrible burning pains in my head. I learn of your Double Treatment for Catarrh and Hay-Fever and you cured it at once. After having used three bottles of the remedies I was entirely cured. I heartily endorse your valuable medicine, and advise all Hay-Fever sufferers to give it a trial. (Signed)

CATARRH.

What the Resident Manager of the Chicago Newspaper Union has to Say.

The Hiroms Medicine Company, Fort Wayne, Ind.

GENTLEMEN:—Your Mr. A. R. Hiroms persuaded me to give your Double Treatment for catarrh a trial, and after having used it about 30 days, I can honestly say that the results have been very satisfactory. I have been a sufferer from this disease since childhood, and was so bad at times that the membrane would bleed constantly. By the use of your medicine I have stopped the bleeding, my head is greatly relieved, and I have no more difficulty with my breathing. Yours truly

CHARLES L. TILLO.

A Word From Charles Vogelsheimer, the Electrician.

DEAR SIR:—I have had a bad case of catarrh for 14 years. There was a constant dripping of mucous into my throat. Every morning my nose, head and throat would be filled up. After a terrible siege of trying to remove the mucous I would become so sick that it was with difficulty that I could eat my breakfast. I had no appetite. The disease developed into bronchitis and dyspepsia. I read of your Double Treatment for Catarrh, and after having used your remedies for a short time, I can cheerfully say that now my appetite is good, I have no more trouble with indigestion, my throat is well, and my general health has not been as good for years.

[Signed]

ASTHMA.

Testimonial From Ex-Judge of the Superior Court of Allen County.

Hiroms Medicine Co., Room 3 Schmitz Block, City.

Having been a great sufferer from that most distressing disease, Asthma, and having used your Asthma remedy for the last few months, I can certify very cheerfully, that it has afforded me great relief, and I feel confident that in the majority of cases, will accomplish a permanent cure.

Respectfully yours,

A. A. CHAVIS.

Hemorrhage of the Lungs Cured.

Miss Anna Schoepf, who resides at 102 W. Superior St., says: "I take great pleasure in signing the following statement: All my life I have been afflicted with a bronchial cough. A year ago I had a hemorrhage of the lungs. Since that time for months I have been troubled with hemorrhages. I was advised by a friend to use your New Asthma and Cough Cure. I have taken four bottles of the remedy. I have no more sweats in my lungs and the hemorrhages have ceased. I cannot say enough in the praise of your medicine.

(Signed,) ANNA SCHOEPF.

Had Asthma for Twenty Years.

The Hiroms Medical Company, Room 3 Schmitz Block, Fort Wayne, Ind.

Dear Sirs:—I had Asthma for twenty years. I treated with physicians in St. Louis and in other cities, and have used many remedies, but never received any relief whatever until I commenced the use of your New Asthma and Cough Cure. Before I had used one bottle I received great relief, and after having used four bottles I am entirely cured. I am happy to recommend your remedy to all who are suffering from Asthma. May the Lord bless you and your wonderful medicine.

Signed, MARY HUFFORD.

GRAND EXCURSION.

Portland, Decatur and Bern Send Big Delegations.

Conductor Rick Quickly Married — The Pennsylvania's Atlantic City Excursion a Success—Sheep and Bath.

The Grand Rapids and Indiana road brought in one of the largest excursion parties of the season today, the conductor of the train reporting over 900 people in the party. The occasion was the annual picnic at Robison park of the Evangelical Sunday schools of Portland, Berne and Decatur. These people were here last season and were so well pleased with the park and the manner of their reception there that they decided to try that resort again this year. The number of excursionists was much greater than the park officials anticipated and consequently there were not enough cars at the depot when the train arrived to accommodate all, but more cars were soon secured and in a few minutes the entire party was en route to the grounds. The weather was delightful and never did a jolly, happy people enjoy a day's outing more than those at the park today.

Henry F. Marvy, president of the Fitchburg road, was Tuesday found dead in his bath room at his residence in Bellmont, Mass. Death was due to apoplexy. He had been in failing health for some time. President Marvy had been greatly worried of late over matters in connection with the road. An extensive examination of the accounts has been in progress for several weeks and during the last few days rumors of changes to be made in the management have been heard widely. On Monday it developed that a shortage of $12,000 to $15,000 had been found by the experts at work on the books, and these facts, it is stated by friends of President Marvy, brought on the fatal stroke. He had been in the railroad service since 1856, commencing as master of transportation on the Rutland and Burlington; in May, 1885, he was appointed traffic manager of the Fitchburg road, and November 1, 1889, was elected president of the company.

A PAINFUL BURGE.

There is a report in Nickel Plate circles that George L. Chisholm died in a little village in central Michigan last Tuesday. The cause of his death, the rumor says, was quick consumption. Inquiry at the Nickel Plate offices failed to confirm or deny the report. In fact nothing has been heard of Mr. Chisholm for several weeks. He was employed as a brakeman on the Nickel Plate up to three or four months ago, when he was taken with rheumatism and he left the city, saying he was going to the home of his mother to remain until he was able to resume work. The name of the town where Mr. Chisholm's mother resides and where he was supposed to be has been forgotten by the railway men here. When in this city Mr. Chisholm resided at 4 Hoagse street.

[illegible]

There was a quiet wedding at the corner of Julia street and Holton avenue at 7 o'clock last Sunday evening, which, up to the morning, had escaped the notice of the reporters of the various city papers. The parties most interested in the nuptial affair were Mrs. Anna Minier, who resided at the address given above, and Abraham C. Mace, one of the well known Pennsylvania conductors. After the wedding ceremony Mr. and Mrs. Rick left for Ohio, where they remained with relatives of the gentleman until yesterday. They have returned to the city and have gone to housekeeping on Green street. Mr. Rick will resume his duties on the road forthwith.

A PIECE OF ART STOLEN.

When John Kruse left home for the electric works, where he is employed, yesterday morning, he was unmindful of the fact that he was that day passing an elder mile stone on life's pathway, and he had no thought of the surprise that was in store for him later. Therefore, when a messenger summoned him home at noon, he hastened to obey, fearing that some accident had occurred or that some member of his family was sick. When he reached the home, however, and saw a large party assembled there, he at once arrived at a true realization of the situation. He was the victim of a birthday surprise, gotten up by his family. There were guests from Roanoke and from Lafayette township besides quite a number of his Fort Wayne relatives and friends. Of the sixty years of Mr. Kruse' life, fifty seven of them have been spent in this county, with the exception of four years that he served in the army during the rebellion. The day was one of the most pleasant ever passed by the host and his invited guests it will long be remembered as such by all who attended the celebration yesterday.

ATLANTIC CITY EXCURSION.

The Pennsylvania company's Atlantic City excursion is a great success, at least that portion of it which drew its patronage from this city and vicinity. The train which left here at 7 o'clock this morning received exactly fifty passengers at this point and at noon today Agent J. E. Ross had disposed of all the berths in another sleeper and had a half dozen more inquiries. At this rate the party which will leave on No. 8 this evening will be equal, if not greater, than the one which left on No. 6 this morning.

RIGHT MENTION.

Fireman John Vennetier, of the Nickel Plate, is taking a few days rest.

W. E. Schaefer and G. Beyerman, of the Pittsburg shops, are sick and off duty.

Dispatcher T. J. Costello, of the Pittsburg, has resumed work after a two weeks' vacation.

After a week's illness, George Rowsey, a Pittsburg yard foreman, has resumed his duties.

John Lynch has taken a few days leave of absence from the Pittsburg tin shop to look after private business.

Thomas Newham, a former Wabash engineer, is now engaged in the same occupation in New Foundland.

The foundry department of the Rees works was closed today and the majority of the men attended the races.

Fearing a coal famine, the Pennsylvania company is storing a large quantity of coal in vacant buildings along the line.

Engineer Henry Jones this morning resumed his duties on the Pittsburg, after being outside the wheels a few days.

Nickel Plate Brakemen Imbody and Tindall, who have been on the sick list several days, reported for work yesterday.

Joseph M. Fuller leaves in a few days for Wilkesbarre Pa., to accept a position with the Westinghouse company, of that city.

E. P. Hurr, a Pennsylvania train dispatcher, left this morning for the Atlantic resort, where he will spend a two weeks' vacation.

On account of the sickness of some member of his family, Nickel Plate Conductor G. B. McCormick is unable to go out on his run.

The Baltimore and Ohio is just completing at Bellaire, a new freight depot. The largest and most convenient in that section.

The general passenger agent of the Pittsburg, Bessemer and Lake Erie will remove his headquarters from Meadville to Pittsburg.

Darien B. Dunlow, the Nickel Plate conductor, has resumed his train duties after an illness which disabled him for eight or ten weeks.

A. L. Schwartz, one of the night men in the Nickel Plate round house, has returned from Chicago, where he spent a two weeks' vacation.

The Southern Passenger Association, which went to pieces a few weeks ago, has been reorganized under a new name—the Southwestern Passenger Bureau.

Pittsburg June 14 left the shops yesterday, having been repaired and made as good as new. Engine 41, from the eastern division, was taken in for repairs this morning.

Peter Hunter, an employe of the Rees blacksmith shop, who had a hand injured last Monday, has recovered from the injury sufficiently to allow him to resume work.

Joseph Rahm, of the Rees blacksmith shop, is off duty today on account of the serious condition of his sister, who was removed to St Joseph hospital yesterday for treatment.

At Mercer of the Rees blacksmith shop, had a piece of steel removed from his left forearm yesterday which had been imbedded in the flesh for eleven years. The piece was a half inch long and a quarter of an inch in width, and it was removed without much difficulty. The metal got into Mr. Mercer's arm at St. Charles, Mo., where he worked some years before coming to this city to reside.

E. Stover, a machinist employed in the Nickel Plate round house at Stony Island, has taken a position as fireman on the road and has been assigned to a run on the third district.

The Big Four is replacing the wooden bridge over the Elkhart river, on the Michigan division, with a fine iron structure. It required fourteen cars to carry the material to be used in its construction.

Foreman Joseph Slater, of the Rees blacksmith shops, has returned from a business trip into Ohio. He brought with him from the Buckeye state some orders for forgings.

G. E. Barnes, a fine welder in the Pittsburg shops, will be off duty a few days. Yesterday, while he was assisting in moving a truck load of boiler flues, the pile toppled over upon him, severely bruising his left side and hips.

B. G. Hutsell, of Detroit, is visiting his parents in this city. He is now employed as a fireman on the Wabash, having a run between Detroit and Ashley. A few years ago Hutsell was a caller of engine crews for the Nickel Plate.

Fred W. Moss-wash, the air brake man-inist in the Pittsburg shops, is now playing a piccolo in the City band. Fred has no superior in the manipulation of this instrument and the music produced by the City band is more enchanting since he joined that organization.

Among the excursionists who left this city for the Atlantic seaboard this morning was A. Lasser, a passenger car builder at the east shops. Work will continue in that establishment during his absence, notwithstanding reports to the contrary.

The Baltimore and Ohio gives notice that conductors will not honor unendangerable mileage books of the Cincinnati, Jackson and Mackinaw, the receiver of the latter having refused to redeem the interchangeable mileage when presented for payment.

Engineer Bert Crosby, of the Nickel Plate, who has been laid off for two months with erysipelas on the limbs and body, is recovering and can now get around the house to the use of canes. His many friends hope that his recovery will be speedy and permanent.

Andrew Dawson has succeeded the late Thomas Mulcahy as conductor of a local freight run on the Pittsburg between this city and Lima, Ohio. The readers will remember that Mr. Mulcahy was found dead in the woods near Wauseon two or three weeks ago.

Joseph Dodd, the Nickel Plate roller and the owner of Rosmanti, the fiver, attended the races yesterday. He is regretting the circumstances which precludes the entrance of his own mare in the races this week, believing that she could outfly dust in the eyes of the best of em.

Press Journal: "The Wabash has been having a number of interesting trains pass through here during the past few days. They are loaded entirely with new steel rails, one of the best indications of the return of good times, which go to other roads and to the middle division of the Wabash."

Yesterday was the sixty third anniversary of the birth of Captain J. C. Kinsell the well known boiler maker in the Pittsburg shops. He worked as usual during the day and in the evening a few friends dropped in to extend congratulations and to participate in a quiet celebration of the festivity.

H. A. Philley, clerk in the road foreman's office at the Pittsburg depot will conduct the afternoon meeting at the railroad Y. M. C. A. next Sunday. Mr. Philley is a great biblical student, a good talker and will no doubt have something very interesting to say. He should be greeted by a large crowd.

B. F. Crawford assistant superintendent of motive power of the Pennsylvania lines, came home this morning after spending some days at Columbus and Erie. At the former place Mr. Crawford inspected the numerous electric light plants which the company has recently put in its new passenger depot and which is expected to be put in operation next Monday. The plant will be in charge of Ben Armack, a former citizen of this city, when it is ready for operation.

Division Roadmaster R. A. Houghton, of the Wabash, was in the city today.

The work of wiring the palatial residence of Supt. J. J. Wood, on East Main street, has been completed.

A. B. Adams, general roadmaster of the Wabash was here yesterday, looking on the Grand Rapids train last evening for the Detroit division of the system.

Indianapolis Journal: "A further exhibition of railroad men of the convention of C. T. A. and W. A. Rogers for telegraphing to and from moving trains was made yesterday to a large number of railroad men, most of them train dispatchers. They examined the system thoroughly and with critical eyes looked for weak points, but there was not one of them who was not ready to fully indorse the system after the inspection. There was not a man among them who did not go away firmly convinced that the important question of telegraphic communication between moving trains has been solved."

Traveling Freight Agent W. H. Young of the Lehigh and Wabash Dispatch, and C. H. Rawlins, chief clerk in the Monon's general freight office in Chicago, were here last night.

The watchman's shanty and the sidewalks at the Broadway crossing of the Pittsburg were today raised to conform with the new grade established recently by the elevation of the railway tracks.

Hereafter the railways will not place advertisements in any programs gotten out by base ball clubs, theatrical people, labor unions, athletic societies or kindred publications. The companies believe that it pays only to place advertisements in newspapers and hereafter they will address the public through that channel only.

A party of gentlemen from Decatur Ind., were at the electric light works until 11 o'clock last evening, witnessing the operations in the testing room, where some armatures were being tested. These gentlemen are here for the purpose of inspecting electrical machinery with a view of equipping a plant at Decatur. They will undoubtedly decide to adopt the Wood system.

The entire amount raised in this city for the miners will reach fully $600.

Robert Klaehn, of the firm of Schumann & Klaehn, has in his possession a specimen of tan bark that has been buried ten feet under the earth for over fifty years and is still in a splendid state of preservation. The bark was uncovered by the workmen who were putting in a water hydrant at the corner of Pearl and Harrison streets. More than half a century ago the spot where the Randall hotel now stands was used as a tan yard, the proprietor being James Robinson. The ground was then lowland and was filled when the Robison house was built by Mr. Robinson in after years. This accounts for the fact that the tan bark was so far under the surface. The bark shows no signs of having been in the earth so many years.
